### **4. BINDING NATURE OF THE BINDING CORPORATE RULES (BCR) FOR PROCESSORS**

#### **INTERNAL BINDING NATURE<sup>2</sup>**

##### ***Binding within the entities of the Group acting as internal subprocessors<sup>3</sup>***

How are the BCR for processors made binding upon the members of the Group?

- Measures or rules that are legally binding on all members of the Group
- Contracts or intra-group agreements between the members of the Group
- Unilateral declarations or undertakings made or given by the parent company which are binding on the other members of the Group (that is only possible if the BCR member taking responsibility and liability is located in a Member State that recognizes Unilateral declarations or undertakings as binding and if this BCR member is legally able to bind the other members subject to BCRs);
- Other means (only if the Group demonstrates how the binding character of the BCRs is achieved), please specify

Please explain how the mechanisms you indicated above are legally binding on the members of the Group in the sense that they can be enforced by other members of the Group (esp. headquarters):

Does the internally binding effect of your BCR for Processors extend to the whole Group? (If some Group members should be exempted, specify how and why)

Please confirm that any use of subprocessors (internal) is only done after prior information to data controllers and with their prior written consent

<sup>1</sup> Working Document setting up a table with the elements and principles to be found in Processor Binding Corporate Rules, WP257, adopted on 6 February 2018.

<sup>2</sup> See Section 1.1 and 1.2 WP 257

<sup>3</sup> See Section 1.2 (i) WP 257

***Binding upon the employees<sup>4</sup>***

Your Group may take some or all of the following steps to ensure that the BCR for Processors are binding on employees, but there may be other steps. Please, give details below.

- Individual and separate agreement/undertaking with sanctions
- Work employment contract with sanctions
- Collective agreements (approved by workers committee/another body) with sanctions
- Employees must sign or attest to have read the BCR for Processors or related ethics guidelines in which the BCR for Processors are incorporated
- BCR for Processors have been incorporated in relevant company policies with sanctions
- Disciplinary sanctions for failing to comply with relevant company policies, including dismissal for violation
- Other means (but the group must properly explain how the BCRs are made binding on employees)

Please provide a summary supported by extracts from policies and procedures or confidentiality agreements as appropriate to explain how the BCR for Processors are binding upon employees.

---

<sup>4</sup> See Section 1.2 (ii) WP257

**EXTERNALLY BINDING NATURE**

***Binding upon external subprocessors processing the data***

Please confirm that a written contract or other legal act under Union or Member State law is put in place with external subprocessors which states that adequate protection is provided according to Articles 28, 29, 32, 45, 46, 47 of the GDPR and which ensures that the external subprocessors will have to respect the same data protection obligations as are imposed on the Group members according to the Service Agreements concluded with data controllers and Sections 1.3, 1.4, 3 and 6 of WP257<sup>5</sup>.

How do such contracts or other legal acts under Union or Member State law address the consequences of non compliance? Please specify the sanctions imposed on subprocessors for failure to comply

Please confirm that any use of subprocessors (external) is only done after prior informed specific or general written authorization of the data controller<sup>6</sup>

Please confirm that subprocessors accept to submit their data processing facilities for audit, at the request of a data controller, of the processing activities relating to that controller<sup>7</sup>. Please describe the system.

How are the rules binding externally for the benefit of individuals (third party beneficiary rights) or how do you intend to create such rights? For example you might have created some third party beneficiary rights in contracts or unilateral declarations<sup>8</sup>.

Please provide a summary supported by extracts from the agreement signed with data controllers as appropriate to explain how the BCR for Processors are made binding towards data controllers<sup>9</sup>

Please confirm that data controllers' rights shall cover the judicial remedies and the right to receive compensation

---

<sup>5</sup> See Section 6.1 (vii) WP257

<sup>6</sup> See Section 6.1 (vii) WP257

<sup>7</sup> See Section 2.3 WP 257

<sup>8</sup> You must be fully aware of the fact that according to civil law of some jurisdictions (e.g. Italy or Spain) unilateral declarations or unilateral undertakings do not have a binding effect. In the absence of a specific legislative provision on bindingness of such declarations, only a contract with third party beneficiary clauses between the members of the Group may give proof of bindingness.

<sup>9</sup> See Section 1.4 WP 257

***Legal claim or actions***

Explain how you meet the obligations according to the requirements of Article 47.2.e, 77, 79, 82, as further specified in paragraph 1.3 of WP257<sup>10</sup>

Please confirm that the controller established on the territory of a Member State (e.g. EEA headquarters of the Group, the Group member of the Processor with delegated data protection responsibilities in the EEA or the EEA exporter processor (e.g., the EEA contracting party with the controller), has made appropriate arrangements to enable itself to remedy the acts and to pay compensation, for any damages suffered either by a data subject or a data controller, resulting from the breach, by any member of the Group or by any external subprocessor, of the BCR for Processors and explain how this is ensured.

Please confirm that the burden of proof with regard to an alleged breach of the rules caused either by a Group member or by an external subprocessor will rest with the member of the Group in the EU that have accepted to endorse liability for breaches caused by non EEA members of the group or by subprocessors, regardless of where the claim originates.

***Easy access to BCR for Processors<sup>11</sup>***

Please confirm that your BCR for Processors are annexed to the Service Agreements signed with data controllers, or that reference to it is made with a possibility of electronic access:

Please confirm that your BCR for Processors are published on the website of the Group of processor in a way easily accessible to data subjects, or at least that a document is published and contains all the information as required in Section 1.8 of WP257:

<sup>10</sup> 1.3 WP 257 provides that the BCRs must grant rights to data subjects to enforce BCRs as third party beneficiaries against the processor either when the requirements at stake are specifically directed to processors in accordance with the GDPR or in case the data subject is not able to bring a claim against the data controller because the data controller has factually disappeared or ceased to exist in law or has become insolvent, unless any successor entity has assumed the entire legal obligations of the data controller by contract of by operation of law, in which case the data subject can enforce its rights against such entity.

<sup>11</sup> See Section 1.8 WP257

## 5. EFFECTIVENESS<sup>12</sup>

It is important to show how the BCR for Processors in place within your Group are brought to life in practice, in particular in non EEA countries where data will be transferred for processing activities on the basis of the BCR for Processors, as this will be significant in assessing the adequacy of the safeguards.

- Employees are tested on BCR for Processors and data protection
  
- BCR for Processors are communicated to all employees on paper or online

### *Internal complaint handling*<sup>14</sup>

Do the BCR for Processors contain an internal complaint handling system to (i) communicate claims or requests without delay to data controllers, and to (ii) handle complaints instead of a data controller when the latter has disappeared factually, has ceased to exist in law or became insolvent, or when it has been agreed with a data controller that the Group will handle claims and requests from data subjects?

Please describe the system for handling complaints:
